- » WCS18-10 - 18" TRP Conventional Saddle Metal Wiper

WINDSHIELDS

The TRP glass program brings you the highest quality aftermarket replacement windshields at affordable prices. TRP glass provides improved clarity over other replacement glass which means increased visibility and less driver fatigue. TRP replacement windshields meet stringent quality standards to ensure proper fit, reducing installation time.

All TRP windshields are made with your safety in mind through a lamination process where two pieces of glass are bonded together by a vinyl inner layer. If an accident occurs, the vinyl inner layer prevents the glass from shattering and provides strength which helps to keep occupants in the vehicle during a head-on collision. The glass breaks, but the pieces stick to the vinyl.
